

**ONLY FILL IN AND RETURN TO THE PENSION OFFICE
IF YOU WISH TO PARTICIPATE IN THE C PLAN PENSION SCHEME**

Form Investment manner C scheme contribution

Please use this form to indicate how you wish to invest the contribution in the C scheme.

Investment table of the pension fund

The investment table of the pension fund is made up of passive investment funds of BlackRock. The annual expense fees range between 0.08% and 0.33%, depending on the investment fund. No purchasing and selling costs are charged.

- I opt for the investment table of the pension fund as investment mix for my future contribution.
More information can be found in the 'Individual pension investment' brochure (which you can download via the pension fund website).
- I derogate from the investment table of the pension fund.
I will give notice of this derogation online via the portal or via the "what is your investor profile?" question list and the "investment account update form" (which you can download via the pension fund website).

Clarification C scheme

The C scheme largely matches the (tax-facilitated) B scheme for the wage up to € 112,189. Only the time of taxation is different:

1. the gross contribution in the B scheme is untaxed, the pension that will eventually be paid under this part of the pension scheme will be taxed;
2. the gross contribution in the C scheme is taxed, the pension that will eventually be paid under this part of the pension scheme will not be taxed.

The taxation of the gross contribution in the C scheme takes place via your wage payments. You receive a gross contribution from Vopak each month. The usual deductions are deducted from the gross contribution and the remaining amount compensates the monthly deduction of the net contribution. This net contribution is paid to the pension fund.

The balance on your investment account for the C scheme is income tax-exempted in box 3. No further deductions are made in respect of the net old-age and partner's pension purchased with the balance after retirement.

Waiver participation C scheme

You may waive the participation in the C scheme. If you waive participation in this part of the pension scheme:

- you will receive the gross contribution, which will be paid to you after deduction of the regular deductions;
- no net contribution will be paid into the investment account held with the pension fund;
- no net partner's and orphan's pension insurance will be taken out with the pension fund;
- no continuation of the net contribution in case of incapacity for work insurance will be taken out with the pension fund.

If you waive participation in the C scheme you will, of course, continue to participate in the pension scheme as far as the pensionable wage up to € 112,189 is concerned.

Investment manner C scheme contribution form and Waiver participation C scheme statement

Please find enclosed with this letter the 'Investment manner C scheme contribution' form and the 'Waiver participation C scheme' statement. *We would like you to return one of these forms to us as soon as possible.*

On the 'Investment manner C scheme contribution' form you can indicate in which manner the contribution should be invested. In the 'Individual pension investment' brochure, which you can download on our website, you can find the investment options and risks.

If you wish to waive participation in the C scheme we would like to ask you to fill in and sign the 'Waiver participation C scheme' statement and return it to us. Since no net partner's and orphan's pension will be insured if you waive participation, your partner, if applicable, must also sign the waiver.

You have the option of revoking your waiver of participation in the C scheme once per year. The insurer of the risks in this part of the pension scheme has to consent to the revocation of the waiver of participation.
